

COVID-19 Guidelines for Club track opening – Steel City Riders

With phase 1 taking place on May 19th, 2020, and the classification of motorcycle racing stated within, Steel City Riders is happy to announce that it's time to get back to riding! As a participant in the club, you readily volunteer to understand, follow, and respect the guidelines put forth by the club. The rules/guidelines set forth below are meant to be taken very seriously with the COVID-19 virus changing our planet in every way. Our community is no different and we must prioritize and abide by the guidelines to minimize the risk to you, other participants, families, and staff.

These considerations are designed to be a rough outline, subject to discussion and adjustment as needed, with input from the local government agencies and health authorities where the event operates. If Government guidance is more stringent than this document, you should follow Government guidance. These guidelines may change at any time due to Government and/or Six Nations guidance.

Should there be any instances of COVID-19 while at a Steel City Riders event/property please follow the guidance of the Steel City Riders emergency response guide. The emergency response guide is available on the website or at the club track on the large trailer by the track.

Below you will find a step by step process for everyone to follow very closely and is not open to interpretation. Failure to follow the process may result in a revocation of your membership to Steel City Riders without refund, subject to Board of Directors discretion.

Club Track practice days

Self-Screening:

All participants, workers and support personnel must self-screen for COVID-19 symptoms and must not attend club property or any event if symptoms have been experienced within the last 14 days or if they have travelled outside the country or been exposed to someone with COVID-19. The only exception to the travel/contact ban would be for those exempted from the quarantine guidelines by the Federal government. Please follow this link to Public Health Ontario's COVID-19 self-assessment: <https://covid-19.ontario.ca/self-assessment/>.

Social Distancing:

Social distancing of 2 meters / 6 feet will be in effect for all people on site, with the only exception being people from the same immediate family/group, as per Ontario's provincial guidelines. If you are interacting with other members on the property, it is recommended to wear a mask whenever doing so, even if following social distancing principals.

Washroom use and handwashing:

The washrooms on the club property will have disinfectant spray attached to each port-o-potty. It is each member's responsibility to spray high touch surfaces after each use. Hand washing stations will also be available. It is recommended to also bring your own hand sanitizer. Frequent hand washing for 20 seconds or hand sanitization are recommended.

Spectators:

Spectators are not allowed. Vehicles not containing bikes/riders will not be allowed on the property. Please keep a rider's entourage to an absolute minimum.

50 CC Track Spectators:

Only one supervisor per rider is allowed to supervise a rider at the 50cc track. Supervisors should ensure social distancing protocols are adhered to at all times.

Assisting Downed Riders:

Only members of a participant's immediate family/support crew are permitted to assist with starting or repairing bikes. If a participant is injured, the applicable SCR Injured Rider Protocol will be in effect with the addition that, if possible, social distancing will be maintained if the assistant is not a direct family member or support crew.

Club tools and equipment:

Using club tools and equipment is prohibited unless authorized by the SCR board of directors. It is recommended that all tools be cleaned with an appropriate cleaner before and after use. Gloves shall be worn whenever practical. Masks shall be worn whenever working in an enclosed area and whenever social distancing guidelines are compromised.

Track security:

There may be workers patrolling the club track for Covid-19 best practice adherence. Please follow their directions and do not give them a hard time. Their only goal is to make sure all of our members can enjoy the club property, safely. Volunteer abuse will not be tolerated under any circumstance and may result in a loss of membership. If members are unwilling to follow these guidelines, we may be forced to close the property either at the discretion of the Board of Directors or by mandate of the Six Nations/Government.

You may be refused entry to future events and/or have your membership suspended until the pandemic is over if you do not follow these guidelines.
